Ange Cedrick Angaman

IT Analyst - junior Java developer - junior PHP developer

WHO AM I?

I am a backend / full stack web developer. I am passionate about artificial intelligence and video games and devOps. I am calm but my curiosity forces me to talk a lot. I like to code in PHP but that doesn't prevent me from coding in Java or Javascript. My goal is to be versatile and flexible in order to enrich my technology watch. I am available for a freelance part time (3 days/5) position.
